Espósito Tejerina Lucas

CABA, Buenos Aires, Argentina | (+54) 11 22899888 | espositolucas2002@gmail.com | linkedin.com/in/lucas-esposito-tejerina

Information Systems Engineer graduated from the National Technological University (UTN FRBA). During my career I have acquired and applied technical and theoretical knowledge, developing projects oriented to the development of data-driven solutions that optimize business processes and improve decision making. Skills in Python, SQL and data visualization applied to market analysis, process automation and AI categorization projects. I am looking to contribute my technical and analytical skills, while continuing to expand my skills in a dynamic data-driven environment.

EXPERIENCE

Administrative Management Analyst

Fondos Toty's SRL   *February 2024 - Present*

- Implemented a **centralized data management system (SQL relational database)** that **reduced time spent on administrative tasks by 40%.**
